

PMI-ACP (Agile Certified Practitioner)

2,5 days program (21 hours program)

OFFICIAL PARTNER OF

Overview

ACP is an acronym of Agile Certified Practitioner. This certification is provided by Project Management Institute PMI and hence it is PMI-ACP.

Agile is a monotonous approach to deliver software in a cumulative manner from the start of the project rather than delivering the whole project at the end.

This methodology mainly aims to deliver the product to the customer in smaller sprints instead of delivering at a time

Target Participants :

Project Manager, IT Team, Business Analyst and other person involve in product development, who has more than 4 years experience, mainly working in AGILE Environment

ACP Certification carries a high level of professional integrity as it is a combination of agile training working on Agile projects and examining Agile fundamentals and tools.

This course will also discuss the knowledge of SCRUM in detail

Training Outcomes

By the end of the program, it is expected that participants are able to:

- The participants will gain knowledge of Agile tools and practices to the current employees working in an organization.
- Being an Agile Certified Practitioner implies that participants have earned an attestation that shows your professional ability.
- This course also helps participants to learn practical techniques for planning, estimating the cost of the project in an Agile way
- Additional knowledge related to SCRUM in detail will also be taught, to prepare participant in gaining certification in SCRUM
